## DIRECTOR'S MESSAGE

Schooling is, without doubt the foundation stone upon which the life of an individual is built. In today's fast-paced competitive world, the importance of schooling can in no way be undermined, the fundamental and basic value system that develops during schooling of an individual remains for a lifetime and thus schools as a social institution, must cater to this need of society to make it more value based with strong values and ethics. Apart from these value systems which get inculcated in a student's life, there is another dimension of schooling which is equally pertinent when it comes to children's education ie. learning. Learning and value systems mould the final character of our children, At JSWWS, We focus on quality education, experiential learning and not cramming which is need of the hour. So that students could apply the knowledge in the daily life. We help children to develop the four pillars of learning, which are Knowledge, Skills, Disposition and Feelings. A child's character cannot be developed without the amalgamation of these four pillars.

The Four pillar's of JSWWS Are SMART, SKILLED, SINSER, Scholectic
